Repère A de la page.

Les Miniatures Speed Graphic sont au format 21/4x 31/4 , et pourtant ce sont déjà de jolis petits bébés, qui commencent à peser dans la main. Alors, ce Speed Graphic, au format 4 x 5 pourra rentrer dans un programme intensif de musculation. La description précise qu'il est destiné aux amateurs sérieux (du style quand ils parlent on les écoute ?) mais qu'il prendra des photos de qualité professionnelle.

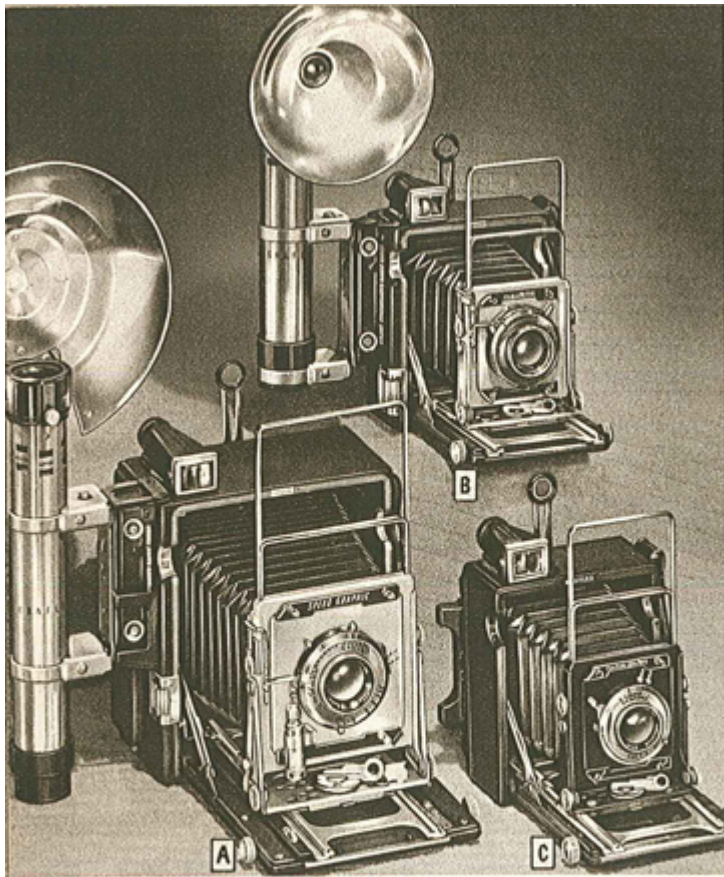

Au dos Graflok peuvent s'adapter plusieurs magasins : Film-pack, plan-film, film en rouleau.

L'abattant peut s'abaisser pour permettre l'utilisation des objectifs grand-angulaires.

La fiche technique n'est pas prévue pour pouvoir indiquer les caractéristiques de deux obturateurs. Cela pose un problème dans le cas présent, puisque l'obturateur à rideau permet les vitesses de 1/30 à 1/1000, alors que l'obturateur situé sur le bloc optique permet les vitesses de la seconde au 1/400.

On y apprend que le corps est en acajou recouvert de cuir.

SPEED GRAPHIC 4x5

\$297.55

Cash or terms . . . \$30.00 Down

- World famous original press camera takes fine pictures
- Focal plane shutter to 1/1000 sec. stops fast action

A 4x5 Speed Graphic. The camera serious amateurs like for taking prize black-and-white and color pictures. Press and commercial photographers use the Speed Graphic too. You'll take professional-quality photographs—high speed action, home portraiture, close-ups, all types of outstanding pictures.

Lens—Kodak Ektar 127mm coated f:4.7 lens. Stops down to f:32. Graflok ground glass back with removable metal folding hood . . . for pinpoint focusing. Ektalite field lens makes the ground glass image brighter. Uses a variety of film types . . . film pack adapter, sheet film, or roll film holder.

Shutter—focal plane fully flash synchronized 1/30 to 1/1000 sec. Also pre-cocking Supermatic shutter. "X" type for use with speedlights. 9 speeds 1 sec. to 1/400 sec. plus time and bulb. Focal plane shutter gives speeds 2 1/2 times faster than front shutter. Governor-controlled speeds mean better color pictures. Switch sets body release for front and back shutter operation. Dual focusing controls at right and left of camera. Positive lock lever for taking photos from one position. Front with rise, tilt, lateral adjustments . . . double extension bellows ideal for close-up, low-angle work.

Drop bed gives clear field for wide angle lenses. Optical viewfinder has vertical and horizontal parallax correction. 38mm lens mount diameter. Mahogany wood body, black leather cover. Detachable handle. Includes Kalart rangefinder, bracket; 3-cell Graflite flash with solenoid release for positive synchronization; 7-in. reflector, battery test-lite; one 4x5-in. sheet film holder. Same price cash or terms.
