"PRESS-FLASH" PHOTOGRAPHY

is here!

**YOU GET WHAT YOU SIGHT
REGARDLESS OF LIGHT**

Imagine being able to instantly take good pictures anywhere at any time, indoors or outdoors — IN ANY KIND OF LIGHT! You simply sight your picture in the "Spyglass" viewfinder, press only one lever — and you have your picture! The flash-bulb and shutter are automatically synchronized. Just sight and snap! Imagine the unposed pictures you can make at home, at parties, at theatres — and also "hot news" shots for sale to publications.

Uses reg. roll films, No. 120, and this "Penlite" 3-cell battery. **\$ 5.95**
